CORUNDOX

Head with a ceramic insert, exhibiting hardness of a sapphire, will resist even the hardest water.

NANOCAVE

Micro-pockets, thanks to which grease in the head does not flush, and allows for its operation for many years.

ERGOSIZE

Ergonomic bath shower tap with high, rotary body caters for space for convenient use.

CLEANBODY

Body without bores and recesses leaves no room for dirt accumulation and growth of microorganisms.

ECOFLOW

Water stream mixed with sucked air provides for no-splash operation and water savings of up to 50%.

SUS304

High-quality stainless steel features increased resistance to chemical substances, retaining its look even after many years.

SMARTCLEAN

Simply swipe with your finger, to remove scale and restore normal flow in the bath shower tap.

NOLEAD

Stainless steel free of zinc and lead — toxic elements, which pervade water in microscopic amounts when brass taps are used.
