

Manual rivet gun

YT-36070

Intended for connecting materials made of steel, stainless steel and aluminium with use of rivets. It forms connections by means of an internally threaded bushing. The easy-to-handle design ensures convenience and safety of use, without putting too much strain on hands.

- 3 jaws made of durable CrMo steel
- the set features 4 heads with following diameters: 2.4, 3.2, 4.0 and 4.8 mm
- total length: 190–270 mm
- weight: 720 g
- grip made of carbon steel, covered with nylon
- body made of aluminium
