

## Countersinks for metal with HEX chuck

High-quality countersinks made of HSS steel.  
Designed for professional applications – drilling in hard and coarse materials.

- HSS steel provides for a few-fold faster drilling in stainless steel, construction steel and aluminium
- 5-blade „Split Point” with 45° angle allows for drilling without centre-punching
- ground surface increases drilling precision
- durable, resistant to damages and blunting
- HEX ¼" chuck provides for the possibility of mounting in battery screwdrivers and impact wrenches

YATO	H (mm)	HEX (mm)
YT-44721	40	6,3
YT-44722	40	8,3
YT-44723	40	10,4
YT-44724	40	12,4
YT-44725	45	16,5
YT-44726	45	20,5

## Set of countersinks for metal

The set includes 6 countersinks,  
YT-44721–YT-44726, packed in a handy case.
