

Cordless ratchet

YT-82902

The ratchet is recommended for use in narrow, hard-to-reach areas and where the equipment in the car engine compartment does not allow for efficient loosening and tightening of screws or bolts.

- easily accessible switch, designed similarly to pneumatic devices, guarantees comfortable use, even with work gloves
- impact function and 45 Nm torque optimised for use with screws in the M6-M14 range
- the possibility of changing the direction of rotation of the right/left
- speed regulation in the range of 0-250 rpm
- included: 2 Ah YT-82909 battery, 1 hour charger, 12, 13, 14 and 17 mm sockets with a 3/8" tip and adapter for the most popular 1/2" tips
